## Notes from Social Service

February is Heart Awareness Month, and from a non-clinical perspective, the heart looks a little different here in Social Services. To us, the heart represents the art of loving and caring for those entrusted to our care at Memorial Community Care (MCC).

At MCC, we view ourselves as a family. Staff, residents, and loved ones spend meaningful time together—building relationships, learning one another's stories, and working together to provide the compassionate, respectful care our residents deserve.

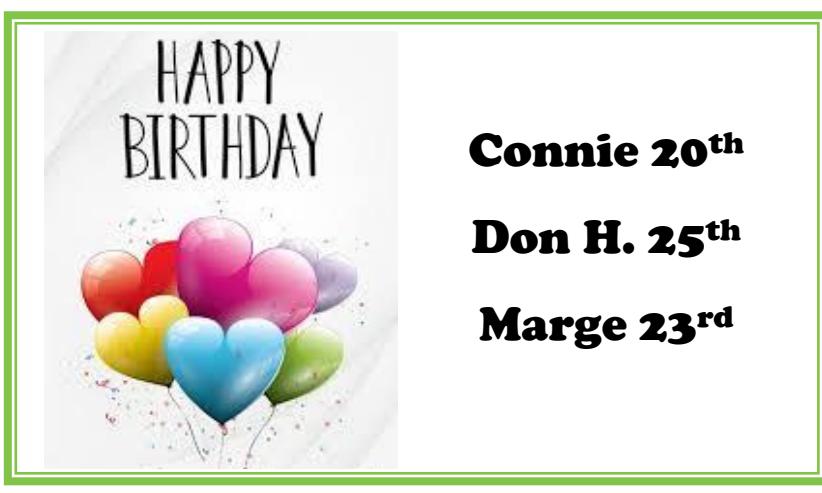

Like any strong relationship, communication is essential. Please never hesitate to reach out with questions or concerns regarding your loved one's experience at MCC. If you're unsure which department to contact, Social Services is always a good place to start. We are here to help guide your questions to the appropriate department and to follow up, ensuring your concerns are addressed thoughtfully and thoroughly.

We are truly grateful that you have chosen to be part of the Memorial Community Care family. We remain committed to creating a home-like, resident- and family-centered environment where care, connection, and compassion are always at the heart of what we do.
